

INVESTMENT OBJECTIVE

The Securis Catastrophe Bond Fund (“SCBF” or the “Fund”) aims to generate returns and growth by investing in catastrophe bonds (“Cat Bonds”). A Cat Bond is a form of insurance linked security that transfers the risk of financial loss as a result of catastrophic events to the capital markets. The sponsors of the Cat Bonds are typically insurance companies, reinsurance companies, corporations and governments. Cat Bonds may pay fixed, floating or variable rates of interest and typically have durations between 1 and 4 years. Cat bonds may or may not be rated by an independent rating agency.

COMMENTARY – March 2024¹

The Securis Catastrophe Bond Fund was up +1.06% in March 2024, bringing the year-to-date return to +3.54%. The month saw flat market spreads, bringing to a halt the tightening we had experienced during January and February. The combination of a large supply of primary issuance and some evidence of selling pressure towards the end of the month appears to have returned some equilibrium to the market. Just short of \$2bn of primary deals priced during the month while, at the time of writing, over \$7bn of bonds have been issued or launched year to date.

Of the thirteen programs of notes that launched during the month, six are on behalf of sponsors new to the market, a continuing and positive indication of the attraction and health of the market. It appears high levels of issuance volumes will continue until the start of the US hurricane season. The Fund participated in six out of the twelve issues that closed during the month. In conducting our selective strategy we are taking into account current climate indicators, such as warm Atlantic sea surface temperatures and the status of the ENSO cycle, utilising our in-house expertise and tools.

While it is still early in the year, these point to a potentially active hurricane season. We are therefore tactically positioning our portfolio defensively in relation to the areas and risks we consider the most vulnerable. This is being accomplished both through primary market selection and the reduction of more vulnerable positions by sales in the secondary market. There were no natural catastrophe events during the month of concern to the Fund.

RISK CONSIDERATIONS

Historical data may not be a reliable indication for the future risk profile of the Fund. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested. We have calculated the Fund's risk and reward category, as shown above, using the methods set by European Union rules. The Fund is in category 3 (denoting lower risk, but with the potential for lower rewards) because it invests primarily in Cat Bonds, the value of which can fluctuate considerably.

Please refer to the prospectus for more detailed information on the investment policies, the investment manager's strategy and some of the terms used above. Prospectus and KIID can be downloaded at www.securisinvestments.com/ucits.

Source: Securis Investment Partners LLP, unless otherwise stated. Where applicable, unless otherwise noted, performance is shown net of fees, on a NAV to NAV basis. This material is confidential and intended solely for the use of the person or persons to whom it is given, or sent, and may not be reproduced, copied or given, in whole or in part, to any other person. It is aimed at sophisticated, professional, eligible, institutional and/or qualified investors who have the knowledge and financial sophistication to understand and bear the risks associated with the investments described. Nothing contained herein constitutes investment, legal, tax or other advice, nor is it to be solely relied on in making an investment or other decision. This is a marketing communication and it is not an invitation to subscribe and is by way of information only. Investments should only be made after a thorough reading of the current prospectus, offering memorandum, the Key Investor Information Document ("KIID"), the articles of association and the current annual and semi-annual reports (the "legal documents"), as well as after consulting an independent finance and tax specialist. The legal documents can be obtained in hard copy and free of charge from the addresses indicated below. This presentation mentions a sub-fund of Securis Global Funds ICAV, registered office at 20 Kildare Street, Dublin 2, Ireland, an umbrella investment company with variable capital and segregated liability between the sub-funds, incorporated under the laws of Ireland and authorised by the Central Bank of Ireland ("CBI") as a UCITS Fund in accordance with Statutory Instrument No. 352 of 2011 (as amended) which has transposed Directive 2009/65/EC into Irish law. The Management Company is B-FLEXION Fund Management (Ireland) Limited, 20 Kildare Street, Dublin 2, Ireland. Some of the sub-funds may not be registered for sale in all jurisdictions. Therefore, no active marketing must be carried out for them. Subscriptions will only be received and shares or units issued on the basis of the current fund prospectus.

The views expressed herein are those of the manager at the time and are subject to change. The price of shares may go down as well as up and the price will depend on fluctuations in financial markets outside Securis' control. As a result an investor may not get back the amount invested. Past performance is not indicative of future performance and reference to a security is not a recommendation to buy or sell that security. Holdings and allocations are subject to change. Forward-Looking Statement - Certain information contained in this material constitutes forward-looking statements. Such statements are based on SIP LLP's internal models and assumptions, which are subject to certain risks, assumptions and uncertainties. There can be no assurance that the results described in these forward-looking statements will be achieved and it is likely that actual results will differ significantly from these forward-looking statements, which differences could be material and adverse. They are not a reliable indicator of future performance. The "Market (Raw) View of Risk" represents an unadjusted view of risk, as provided in underwriting submissions. Modelling uses the latest view of RMS, with additional AIR and bespoke models as and when provided, with best efforts to maintain event correlations. The Securis View of Risk is the latest internal model used for investment analysis, portfolio modelling and valuation. The view includes proprietary adjustments to the data and models provided as part of the underwriting submission; this includes adjustments for under-modelled and non-modelled risk. The two risk models may differ materially. The assumptions and methodologies utilised by SIP LLP are available upon request and may vary over time. All forward-looking statements in this document speak only as at the date of delivery of this material. SIP LLP expressly disclaims any obligation or undertaking (save as required to comply with any legal or regulatory obligations) to disseminate any updates or revisions to any forward-looking statements to reflect any changes in SIP LLP's expectations or circumstances on which any such statement is based.
