

## INVESTMENT OBJECTIVE

The Securis Catastrophe Bond Fund ("SCBF" or the "Fund") aims to generate returns and growth by investing in catastrophe bonds ("Cat Bonds"). A Cat Bond is a form of insurance linked security that transfers the risk of financial loss as a result of catastrophic events to the capital markets. The sponsors of the Cat Bonds are typically insurance companies, reinsurance companies, corporations and governments. Cat Bonds may pay fixed, floating or variable rates of interest and typically have durations between 1 and 4 years. Cat Bonds may or may not be rated by an independent rating agency.

**COMMENTARY – February 2026<sup>1</sup>**

The Securis Catastrophe Bond Fund was up +0.42% in February, bringing the year to date return to +0.99%. Performance has been driven by carry offset by seasonal price reductions.

The Fund remained focussed on the primary market as high levels of new issuance continued. Fourteen tranches of notes were launched during the month, ultimately raising more than USD 2.3bn. Along with regular returning sponsors we saw two new sponsors enter the market. Amongst the deals to have closed during the month SCBF took positions in one of its core programs covering US ex-Florida natural perils, as well as various deals exposed to US regional perils.

There were no natural catastrophes of concern to the Fund during the month.

**RISK CONSIDERATIONS**

Historical data may not be a reliable indication for the future risk profile of the Fund. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'. The SRRI is not a measure of the risk that you may lose the amount you have invested. This indicator is not a measure of the risk that you may lose the amount you have invested. We have calculated the Fund's risk and reward category, as shown above, using the methods set by UK rules. The Fund is in category 3 (denoting lower risk, but with the potential for lower rewards) because it invests primarily in Cat Bonds, the value of which can fluctuate considerably.
